**Project ID:** 30212 - (1)**Revision Note:****Project Address:** 25P Crane St CONCORD NSW 2137**Keying System:****Architect Company:** FIGGIS + JEFFERSON**Architect Project ID:** -**Sales Rep:** Sasi Arunachalam**This schedule is based on the following documentation.****Project Comments:**

Project Documentation:

3391 TN 110 A, 3391 TN420

Project Notes-

All aspects of this Door Hardware Schedule should be checked and confirmed with all of the current documentation available for this project by the Hardware Supplier prior to the ordering of any hardware.

Master keyed cylinders are to be provided to match the client's existing master key system. Final master key requirements are to be provided by the client at a later date. Cut key quantities and subsequent costs will need to be determined in conjunction with the relevant supplier.

Where door closers have been scheduled they should generally be mounted to the less visible side of the door. The door closers scheduled require a minimum nib room of 60mm when mounted to the pull side of the door.

Aluminium Glazed Sliding Doors: The hardware supplier is to confirm with the door supplier or the builder to determine the compatibility of the door hardware scheduled prior to ordering.

Kickplates have not been included in this door hardware schedule.

Door seals have not been included in this door hardware schedule.

No electronic security products have been specified in this door hardware schedule.

Gate hardware has not been allowed for in this door hardware schedule.
